Member Testimonials

"Personal training/ health coaching has had a powerful impact on my life by making sure that the focus is just not one and done....but on creating insight into the long term motivation of "Why"... My body is the only place that I have to live for the rest of my life...and I want it to be fit, healthy, and strong, till the day I die!" - **Larry B.**

"Working with (a trainer) has not only increased my stamina and strength but she has made me feel that I am worthwhile." - **Patti B.**

"Personal training has positively affected my life by keeping me accountable with exercise, educating me on correct form and process, motivating me to keep going even when I don't feel like it, and helping me to keep my body strong and flexible. This is a good investment that has definitely paid dividends." - **Cheryl C.**

"Personal training has positively affected me by giving me the tools I need to get healthy physically, emotionally, and mentally. It has taught me the importance of healthy nutrition, and how it should look in my life, in order to be healthy and lose weight. The most important thing this has taught me is that I am a person of value and deserving of love. I must let go of past failures, and walk this new path of recovery, health and peace." - **Bonnie S.**
